

Finnish in the Workplace coaching

Implementation time 2023–2024

Hello, join our coaching program to improve your Finnish language skills and job search readiness!

If you want to get employed in positions that match your education or skills, or if your goal is to develop industry-specific Finnish language proficiency, our coaching program provides individual support in areas such as:

- Planning your own career path
- Job search
- Industry-specific Finnish language studies
- Job integration

The objective of the training

The objective of the coaching program is to help you get employed in positions that match your education or skills either during or after the coaching period.

Target Group

The coaching program is targeted towards immigrants and job seekers with a foreign background who need to improve their Finnish language skills to get employed.

Place

The coaching program is available throughout the North Karelia region.

The coaching program consists of the following sections:

- Industry-specific development of Finnish language skills
- Personal guidance and coaching

Duration of training:

- Industry-specific development of Finnish language skills (20 hours)
- Personal guidance and coaching (10 hours)
- The service is provided for a maximum period of 3 months

Content of the training:

The content will be tailored to your individual needs, some examples of the content include:

- Finnish language required in job search and job tasks
- Strengthening job search skills and support
- Finnish job market and work life
- Company culture and work environment
- Teamwork skills
- Industry-specific work life knowledge
- Personal guidance and coaching

The coaching program has ongoing enrollment, so please contact your expert or counselor for more information!
